European Association of Dermato-Oncology (EADO)

The EADO is a non-profit organization founded in 1999 to promote, coordinate and improve clinical and laboratory research activities in the field of skin cancer including primary and secondary prevention, early detection, clinical diagnosis and clinical and experimental research. EADO has organized many successful meetings and the upcoming ones are visible on the website (www.eado.org).

The EADO initiates for the eleventh time a course dedicated to fundamentals in skin cancer targeted to specialists and residents in the final phase of their resident program. They will benefit a comprehensive and updated course to improve their decision-making process for the management of all types and stages of skin cancer, from diagnosis, primary treatment and adjuvant treatment, to the management of locoregional disease and distant metastatic disease.

Target Audience

This 2-day educational course targets doctors who are actively involved in the treatment of skin cancer. Dermatologists or other specialists who have completed specialist training, or residents in the final year of their training program, are likely to gain the most from this course.

Educational Objectives

The principal aim of the course is to provide a comprehensive and detailed understanding of the decision-making process for the management of all types and stages of skin cancer. This will include diagnosis and primary treatment, management of locoregional disease and distant metastatic disease, and adjuvant treatment. This is particularly relevant given the rapid progress in our understanding of melanoma and non-melanoma skin cancer, and the development of new treatments. In particular delegates will acquire the following knowledge:

1. Strategies for diagnosis of melanoma, Merkel cell and non-melanoma skin cancer including dermoscopy and confocal laser microscopy.
2. The indications, risks and benefits and strategies for mole screening.
3. Diagnosis of skin cancer: how to break bad news.

4. The indications and methods for genetic diagnosis and genetic counseling of skin cancer patients.
5. The present AJCC staging systems and how to stage melanoma, Merkel cell and cutaneous squamous cell carcinoma, and other non-melanoma skin cancers.
6. The value of imaging and biomarkers for the detection of metastases and disease staging.
7. Adjuvant treatment of skin cancer: radiotherapy, immunotherapy, chemotherapy.
8. New systemic treatments for stage IV melanoma: targeted agents and immunotherapeutics.
9. New treatment options of advanced basal cell carcinoma.
10. New systemic treatments for advanced Merkel cell and squamous cell carcinoma.
11. The characteristics of mucosal and uveal melanomas and their treatment options.
12. Options for topical treatment of epithelial skin cancers.
13. The current classification of cutaneous lymphoma, staging and treatment options for different subtypes of cutaneous lymphoma.
14. Clinical trials in skin cancer: an update.
15. The indications and strategies for supportive treatments including best supportive care.

Course Organization

The course consists of plenary sessions and interactive outbreak sessions. Plenary sessions will comprise clear structured and up-to-date presentations followed by audience discussion. Voting devices will be used to respond to multiple choice questions. These questions may precede the presentation of the structured knowledge or may be presented at the end in order to test the level of knowledge the audience has gained.

The main part of the course consists of 6 interactive sessions, each with no more than 40 attendants. Every participant takes part in each of these sessions which mainly comprise case-based discussion. These will be used to illustrate treatment pathways, how risk and benefit are assessed, and how management decisions are made.

We look forward to welcoming you in Berlin in January 2024!

Friday, January 12th, 2024

Non-Melanoma Skin Cancer Day

09:00-09:15	Welcome and Course Introduction on the NMSC Day Claus Garbe, Tuebingen, Germany
	PLENARY SESSION 1: Non melanoma skin cancer (NMSC) I <i>Chairpersons: Alexander Stratigos, Athens, Greece, and Iris Zalaudek, Trieste, Italy</i>
09:20-09:40	LECTURE 1: New EADO Guideline for cutaneous squamous cell carcinoma (CSCC) <i>Alexander Stratigos, Athens, Greece</i>
09:50-10:10	LECTURE 2: New EADO Guideline for actinic keratoses (AK) <i>Lidija Kandolf, Belgrade, Serbia</i>
10:20-10:40	LECTURE 3: New EADO Guideline basal cell carcinoma (BCC) <i>Iris Zalaudek, Trieste, Italy</i>
10:50-11:20	LECTURE 4: Guideline update for other NMSC <i>Celeste Lebbé, Paris, France</i>
11:30-11:45	Break
11:45-12:45	COURSE A: Dermoscopy of pigmented and non-pigmented lesions <i>Iris Zalaudek, Trieste, Italy</i>
12:45-13:45	COURSE B: My most interesting non-melanoma cases: an interactive session <i>Axel Hauschild, Kiel, Germany</i>
13:45-14:30	Break

14:30-15:30	COURSE C: Cutaneous lymphomas: diagnosis & management <i>Chalid Assaf, Krefeld, Germany</i>
15:30-15:50	Keynote Lecture I: Burden of skin cancer in Europe <i>Lieve Brochez, Ghent, Belgium</i>
	PLENARY SESSION 2: Non-melanoma skin cancer (NMSC) II <i>Chairpersons: Ana Maria Forsea, Bucharest, Romania, David Moreno Ramirez, Seville, Spain</i>
15:50-16:10	LECTURE 5: Screening for Skin Cancer <i>Ana Maria Forsea, Bucharest, Romania</i>
16:20-16:40	LECTURE 6: Surgical pearls in NMSC <i>David Moreno, Seville, Spain</i>
16:50-17:10	LECTURE 7: The role of radiotherapy in NMSC <i>Lars Bastholt, Odensee, Denmark David Moreno Ramirez, Seville, Spain</i>
17:20-17:40	LECTURE 8: Nicotinamide for prevention of skin cancer <i>Josep Malvehy, Barcelona, Spain</i>
17:50	End of Day I

Program

Saturday, January 13th, 2024

Melanoma Day

09:15-09:20	Course Introduction Melanoma Day <i>Veronique del Marmol, Brussels, Belgium</i>
	PLENARY SESSION 4: Melanoma I <i>Chairpersons: Veronique del Marmol, Brussels, Belgium and Giovanni Pellacani, Rome, Italy</i>
09:20-09:40	LECTURE 9: Euromelanoma campaigns <i>Veronique del Marmol, Brussels, Belgium</i>
09:50-10:10	LECTURE 10: Melanoma diagnostics beyond dermoscopy <i>Giovanni Pellacani, Rome, Italy</i>
10:20-10:40	LECTURE 11: Rare Melanomas: how to diagnose and treat? <i>Claus Garbe, Tuebingen, Germany</i>
10:50-11:20	LECTURE 12: Intralesional treatment of skin cancer <i>Axel Hauschild, Kiel, Germany</i>
11:30-11:45	Break
11:45-12:45	COURSE D: My most interesting melanoma cases: an interactive session <i>Claus Garbe, Tuebingen, Germany</i>
12:45-13:45	COURSE E: Practical aspects in the surgical management of melanomas <i>Roland Kaufmann, Frankfurt, Germany</i>
13:45-14:30	Break

14:30-15:30	COURSE F: Management of patients with distant metastatic melanoma (Stage IV) <i>Christoffer Gebhardt, Hamburg, Germany</i>
15:30-15:50	Keynote Lecture II: Treatment at the end of life <i>Andrea Forschner, Tuebingen, Germany</i>
	PLENARY SESSION 5: Melanoma II <i>Chairpersons: Andrea Forschner, Tuebingen, Germany and Jessica Hassel, Heidelberg, Germany</i>
15:50-16:10	LECTURE 13: Adjuvant treatment of high-risk melanoma primaries <i>Thomas Eigentler, Berlin, Germany</i>
16:20-16:40	LECTURE 14: Neo adjuvant -preoperative treatment of melanoma <i>Christoph Höller, Vienna, Austria</i>
16:50-17:10	LECTURE 15: Tebentafusp for metastatic ocular melanoma <i>Jessica Hassel, Heidelberg, Germany</i>
17:20	End of Day II

Course Faculty

A

Chalid Assaf, MD

Professor of Dermatology
Chief Physician of the Clinic for
Dermatology and Venerology
Krefeld, Germany

B

Lars Bastholt, MD

Professor of Dermatology
Department of Clinical Research
University of Southern Denmark
Odense, Denmark

Lieve Brochez

Professor of Dermatology
Department of Dermatology
University Hospital Ghent
Ghent, Belgium

D

Veronique Del Marmol, MD

Department of Clinical Chemistry
Erasmé Hospital - ULB
Brussels, Belgium
